1. PURPOSE OF THIS DOCUMENT

This document provides an outline of the key dates for TDIS reporting, covering:

- Party Submission obligations; the date whereby a party must submit their return to be included within that Scheme Month's reporting
- Code Manager Reporting Deadlines; the date whereby the Code Manager must publish their latest analysis for review by Parties
- The timeframe for disputed totals, during the monthly reporting cycle and the final report submission for the year.

It is intended as a supporting document to Schedule 7 – Energy Theft Reduction for REC Parties that are part of the Theft Detection Incentive Scheme.

2. THEFT REPORTING TIMELINES

The reporting process and timelines for each TDIS Reporting Year follows the following broad structure:

- The TDIS Reporting Year will run from 01 April through to 31 March inclusive.
- The schedule for monthly uploads will follow a one month and one day lag in line with the data submission deadlines defined in the Performance Assurance Report Catalogue. For example, the first submission of data for the TDIS Reporting Year (covering April) will be expected by the first working day of June.
- Theft investigations should be reported once initiated, with information submitted by the relevant Party Data Submission Deadline as defined in Table 1, with updates provided in subsequent months if appropriate (including reporting the final outcome of the theft in line with the below timescales).
- Confirmed thefts must be submitted to the Code Manager in line with the submission requirements based on the month in which they were confirmed (determined based on the Date Investigation Closed field), as defined in the Performance Assurance Report Catalogue. Parties should submit Confirmed Thefts per the primary submission window outlined below (i.e. the submission one month and one day after the month in which the investigation is closed) with the final submission used for any corrections/updates of data.
- Any confirmed thefts with a Date Investigation Closed outside of that allowed in the Submission Period will not be counted and will be excluded from the Incentive Scheme. In summary this applies a rolling two-month window after the month of confirmation for confirmed thefts to be reported, as illustrated in Table 2.
- The Code Manager will process the data submitted on a monthly basis, publishing each Party's results against each target pot and an anonymised view of the results across the rest of the market within the REC Performance Assurance TDIS dashboards.

- The final Party Submission deadline, the date by which all data for the TDIS Reporting Year is required to be submitted is the first working day of June[1] . Any data submitted after this (except relating to resolution of a query raised per the below timescales) may not be included in the calculation of final totals for the TDIS Reporting Year, and therefore, against a Party's theft target unless otherwise agreed by the PAB.
- Parties may wish to raise queries on the confirmed thefts that the Code Manager has reported for them during the TDIS Reporting Year. To allow the Code Manager to resolve queries in time for the next round of reporting, Parties will have 10 Working Days from the Code Manager Reporting Date, defined as the Party Query Deadline in Table 1 to submit queries. For the final totals as published in June[1], Parties will have 20 Working Days from Publication to query the total number of assigned thefts, queries raised after this deadline will not be considered.
- Normal REC Helpdesk SLAs will apply to the Code Manager to respond to Party queries (i.e. 3 working days at the time of writing), and Parties will be expected to work with the Code Manager to resolve any queries including the correction of any data within 30 days of raising the query unless otherwise agreed by the Code Manager.

The table on the following page outlines the various submission and reporting dates for reporting confirmed thefts in the TDIS Reporting Year. Table 3 contains the communications and associated supplier actions that will be required during the closure of the 2025/26 Reporting Year

[1] After the end of the TDIS Reporting Year

Table 3: Reporting Year Finalisation Communication Timelines – 2027~~5~~/28~~6~~ Reporting Year

Based on the scheme data submission and query timeline and the process for finalisation of the Reporting Year the following communications will be issued to suppliers, with actions required as noted.

~~Date~~	Primary Submission for Confirmed Thefts (Investigation Closed in this Month)~~Communication~~	Final Submission for Confirmed Thefts (Investigation Closed in this Month)~~Content~~	Reporting Deadline~~Format~~	Party Query Deadline~~Supplier Action Required~~
3 April 2028 ~~3 April 2026~~	Final Data Submission Reminder	Reminder of Final Data Submission deadline – i.e. 1 May 2028 date due as per table above, with query window closing 6 June 2028. ~~Reminder of Final Data Submission deadline – i.e. 3 May 2026 date due as per table 1 above (period 12), with query window closing 4 June 2026.~~	Email to Contract Manager and Alternate	Submit date (as per normal requirements)
Prior to 20 June 2028~~Prior to 23 June 2026~~	Reporting Year Data Finalisation – Stage 1	Confirmation that final data submission window has passed and results available in Performance Assurance Dashboards. Reminder of final query window deadline of 18 July 2028. Request for details of any portfolio acquisitions / disposals during the year.	Email to Contract Manager and Alternate	Review results and provide positive confirmation that results have been reviewed and agreed or raise query timely. Provide details of any portfolio changes or positive confirmation of no change.
Late July (subject to queries)	Late July (subject to queries) ~~Reporting Year Data Finalisation – Stage 2~~	Confirmation that query window has closed and any submitted queries have been resolved. Reminder to provide details of any portfolio acquisitions / disposals during the year (if not already provided).	Email to Contract Manager and Alternate	Review post-query results and confirm they reflect outcome of any queries. Provide positive confirmation that results have been reviewed and advise details of portfolio changes (if not already provided).
By the 23nd of August 2028~~By 22 August 2026~~	Debits / Credits Calculation	Confirmation that debits/credits have been calculated and published to the PA dashboard.	Email to Contract Manager and Alternate	Review calculation results and provide confirmation results have been reviewed and agreed.
