1 PAOP activities undertaken in October 2026

Appendix B provides an update on the PAOP activities undertaken during October 2026, with progress and delivery updates detailed in Columns X to AC.

Following feedback received from PAB members at the October meeting, the PAOP reporting template has been enhanced to provide greater transparency of delivery progress, associated risks and dependencies, and potential impacts of delays.

The following information has been incorporated for each planned PAOP activity:

- **Previous Month RAG Status (Delivery):** Provides the delivery status reported in the preceding month, enabling the PAB to identify changes in status and monitor progress over time.
- **Current RAG Status (Delivery):** Indicates whether each activity is on track, off track or at risk of falling behind schedule.
- **Delivery Dependencies:** Identifies key dependencies that may influence the successful delivery of each activity.
- **Impact (if Off Track):** Outlines the potential consequences of delays or non-delivery, including any implications for planned assurance activities and associated risks.
- **Related PAB Papers:** Identifies any papers presented at the relevant PAB meeting that provide further information or updates relating to the activity.

These enhancements are intended to provide the PAB with a clearer view of delivery performance, highlight emerging risks and issues, and support more effective oversight of PAOP activities throughout the reporting year.

REC PAB Recommendation
RECCo recommends that the REC PAB: • **Notes** the October 2026 PAOP activities
