CHANGE OVERVIEW

The footnotes within Schedule 14 - Metering Operations are not in the correct place, are missing or no longer relevant. This Change Proposal looks to correct issues within the footnotes and move them into the legal text to prevent this from happening when future Change Proposals impacting this schedule are implemented.

1 SCOPE

1.1 IN SCOPE

This change has a fully formed solution and a need to progress immediately so it can be included in the next iteration of code drafting for the Market Wide Half Hourly Settlements (MHHS) programme. The Change Proposal Plan has been developed with this in mind.

2 REQUIRED ACTIVITIES AND STAKEHOLDER ENGAGEMENT

2.1.1 PRELIMINARY CHANGE REPORT DEVELOPMENT AND CONSULTAITON

This Change has a fully formed solution and no impact assessment required so the intention is to publish the Preliminary Change Report for a 15 working day consultation immediately after approval of the Change Proposal Plan. The majority of footnotes are just being lifted into the legal text with no material changes, however, given the scale of text that needs to move, recognise the importance of a full consultation.

2.1.2 FINAL CHANGE REPORT

So that a full 15 working day consultation can be completed and the changes included as part of MHHS code drafting, the Final Change Report will be published on the 11 July for decision at the Metering Expert Panel (ex-committee) by the 19 July 2024.
