CHANGE OVERVIEW

The drafting in Schedule 28 – Related Metering Points has been updated for Market-wide Half Hourly Settlement (MHHS), allowing related Metering Points to be in a Status of Operational or Created in SMRS, as long as all Related Metering Points are in the same Status. This Change Proposal suggests allowing Secondary Metering Points with a Status of Created to be linked to Primary Metering Points with a Status of Operational, for MHHS migrated Metering Points only.

CHANGE PLAN UPDATE

The previous Proposal Plan presented to Change Panel in August 2025 extended to solution development ending in October 2025. This solution development period included a presentation at the Change Issues Group (CHIG) and an Information Request.

This progressed more quickly than expected, and the Code Manager has already proceeded to and completed Party impact assessment.

The Code Manager is presenting the below extension to plan for review by the Change Panel, detailing the remaining milestones of the Proposal Plan.
