1 CHANGE OVERVIEW

This Issue seeks to introduce updates to the Performance Assurance Report Catalogue (PARC) to mandate the provision of Meter Point X Number (MPxN) level data for all Erroneous Switch (ES) reporting.

2 RESPONSIBLE COMMITTEE DECISION

On 30 October 2026, the REC Change Panel voted to approve this Extension to Plan for I0326 via ex-committee decision.

3 CHANGE PLAN UPDATE

Milestone	Activity	From	To	From	To
Definition		**06-Jun-26**	**31-Oct-26**	**01-May-26**	**01-Mar-27**
	Solution Analysis	June	July	June	July
	Solution Development	July	August	July	August
	Service Provider Engagement	August	September	August	September
	Solution Refinement	September	October	September	March

Following the transition to the new REC Assurance Provider, we have extended the timelines for solution refinement to allow for further discussion with the new providers and Electralink. Discussions will focus on the potential Performance Assurance benefits brought about by the proposed solution, along with other changes that could be made to the existing Erroneous Switch reporting.

The extension to plan above takes into account the mobilisation of the Stakeholder Advisory Forum (SAF) and the expected award of the REC Code Manager licence to RECCo.
