CT/VT Metered Supplies Commissioning Process Flow – GTC-ICP

* Where ICP is utilising the GTC Approved Service Provider, they can be contacted via email and should be CC'd into the RTML submission to control.

** Fuse NOT to be inserted into HDCO on date of install/energisation of mains supply where this is carried out ahead of commissioning CT/VT. Fuses to be installed following commissioning of CT where a meter has been installed

*** Only applicable where the unit has been CoP 4 commissioned by Lucy (additional to calibration) and completed paperwork has been sent with the unit.
