CHANGE OVERVIEW

This Change proposal seeks to extend the access permitted in the Electricity Enquiry Service (EES) for Electricity Market Reform Settlement (EMRS) Limited, to enable the completion of metering assessments and change of supply checks where Capacity Provider's portfolio includes domestic Consumers.

1 SCOPE

1.1 IN SCOPE

This document details the plan for the assessment and consultation for this Change Proposal. The Change Proposal will update the Data Access Matrix (DAM) by providing EMRS access to additional Data Items and remove a restriction on the Measurement Class / Profile Class that is currently in place, giving them access to all sites and not just I&C. This will ensure that the EMRS have the necessary data to perform Capacity Provider checks.

1.2 OUT OF SCOPE

This change proposal is extending data access for EMRS in the DAM and the EES, however, it is not seeking to make changes to the content of the Data Access Schedule or the DAM. This change will allow the update to the EES to reflect the new access for EMRS, this means that there will be no direct impact on REC parties.

2 REQUIRED ACTIVITIES AND STAKEHOLDER ENGAGEMENT

2.1.1 ANALYSIS

No analysis or additional solution development activity is required as there is a fully formed solution.

2.1.2 IMPACT ASSESSMENT

No impacts to REC Parties have been identified, and therefore a REC Party Impact Assessment is not required for this change.

This change does impact the EES, a REC Service, therefore, an Impact Assessment is required from the EES Service Provider.

2.1.3 PRELIMINARY CHANGE REPORT DEVELOPMENT AND CONSULTAITON

A Preliminary Assessment will be carried out following the EES Service Provider Impact Assessment, this will consider the Impact Assessment response and support the development of the case for change and Code Manager's recommendation. The Preliminary Change Report will be published on 18 August 2023.

2.1.4 FINAL CHANGE REPORT

A Final Assessment will be carried out to review the consultation responses and assess impacts affecting the Final Change Report and the Code Manager's Recommendation, prior to publishing the Final Change Report for a decision.

2.2 RAID

No risks or issues have been identified.
