2 CHANGE PROPOSAL SUMMARY

CHANGE PROPOSAL TITLE *(Mandatory)*	ERDS Upload File in the Data Specification and clarification of cancellation code
WHAT IS THE ISSUE YOU ARE SEEKING TO SOLVE? *(Mandatory)*	The MPAS/ERDS Upload file has historically been a part of the Data Specification however during transition from the MRA, the process has been omitted. This change seeks to restore the file to the specification. Secondly, the file previously provided a cancellation reason code for Switches. Under the current REC arrangements (i.e. since CSS go live) Reason codes are not provided and have been defaulting to W which indicated a reason of "withdrawn" which may now be misleading.
WHAT IMPACT IS THIS HAVING? *(Mandatory)*	The MPAS Upload file is used to report on the success or failure of any Switches. Since migration to the REC, the data within the file has defaulted to labelling all cancelled registrations with the code W (Withdrawn) which misrepresents the action that may have been taken by Suppliers involved in the Switching process.
WHAT OUTCOMES DO YOU CONSIDER ARE NEEDED TO ACHIEVE AN EFFECTIVE SOLUTION? *(Mandatory)*	The restoration of the MPAS Upload file containing the correct data will allow parties to resume effective monitoring, including an appropriate code for the registration status of cancelled.
