OVERVIEW

In November 2023, the Data Communications Company (DCC) as the Centralised Registration Service (CRS) Provider submitted its budget for providing the CRS for the Financial Year 2024-2025. The agreed budget was £16.4m. During Quarter 3 of Financial Year 2024-2025, the DCC identified that through delivering efficiencies not identified when the budget was originally set, a saving of £3.2m could be made. This would, if approved, reduce the Financial Year 2024-2025 budget to £13.2m. This was communicated to RECCo during the 2024/2025 mid-year review. The DCC has engaged with the Code Manager in order to facilitate an in-year budget amendment as per Clause 9.33 of the REC Main Body:

“Once the budget for Centralised Registration Service charges in a Financial Year has been agreed or determined under this Clause 9, it shall only be amended if such amendment is approved under the Change Management Schedule as if the amendment was an amendment to this Code.”

This amendment, following advice from REC legal advisors, should be facilitated by the Change Panel. Should Change Panel approve the Code Manager recommendation, the underspend will be returned to RECCo as a reduction against the charges for CRS for January – March 2025.
