OVERVIEW

This is a Housekeeping Change Proposal subject to the Housekeeping Change Proposal Process, rather than the Standard Change Process. The nature of the change is that it makes non-material changes to the REC Products to correct typographical, grammatical or consistency errors, and provides an opportunity to introduce necessary clarifications.

CODE MANAGER RECOMMENDATION

The Code Manager recommends Change Proposal R0345 is **APPROVED** for implementation on **06 November 2026**.

BACKGROUND

1 SUMMARY

The Code Manager has identified several typographical and formatting errors, as well as opportunities to provide clarity, improve consistency and accuracy across the REC Services and products. These changes have been assessed as meeting the criteria to be progressed via a Housekeeping Change Proposal.

2 PROBLEM STATEMENT

This Housekeeping Change Proposal seeks to make typographical and formatting corrections that have been identified and improve consistency across the REC.

4 DRAFT LEGAL TEXT

The legal text changes to deliver the proposed solution to R0345 can be found here.

5 RISKS, ASSUMPTIONS, ISSUES AND DEPENDENCIES

NO.	RISK	NOTES	MITIGATION
R1	There is a risk that there are other omissions from the REC that haven't been identified by the Code Manager.	There may be other omissions or inaccuracies in the REC that have not been identified by the Code Manager in this Change Proposal.	If other issues are identified during the course of progressing this Change Proposal, a decision will be made to include them in a future Change Proposal.

No assumptions, issues or dependencies have been identified with this Change Proposal.

6 CASE FOR CHANGE

The Code Manager considers that there is a positive case for change to implement this Change Proposal, on the basis that:

- The proposed solution is fully formed and appropriately resolves the problem statement; and
- The impact of not implementing this solution would cause detriment to Market Participants, as the REC would not reflect the current market arrangements and could result in new Market Participants interpreting processes differently to existing Market Participants.
